DEPARTMENT OF CLASSICS

Add new course:

CLAS 299 – Research Practicum in Classics
3 Credit Hours
Introduction to research methods in major subdisciplines of Classics (Latin and Greek literature, history, archaeology, iconography, epigraphy, papyrology, and numismatics). Step-by-step instruction in techniques for writing a good research paper and constructing an effective argument using the recognized evidentiary standards of the discipline. Writing-emphasis course. (RE) Prerequisite(s): ENGL 102, 118, 132, 290, or 298.

Add new primary cross listed course:

CLAS 446 – Archaeological Statistics
3 Credit Hours
Introduction to quantitative methods within the field of archaeology. Case studies are used to introduce students to basic statistical and computational concepts germane to archaeological problems and questions, involving active learning and problem solving. Topics include logic, probability, sampling, exploratory data analysis, modeling, inference, introductory linear algebra, and introductory multivariate statistics. Students will be trained in R as a programming language. (Same as Anthropology 446.) (RE) Prerequisite(s): ANTH 120 or 127 or CLAS 232. Classics is primary.
