What is Academic Advising?
At UT, academic advising is all about you! As a student, you'll work with your academic advisor and the staff at the Center for Career Development to create an academic plan with an emphasis on self-exploration, career exploration, and opportunities for experiential learning.

How to Schedule an Appointment with Your Advisor:
The best way to schedule an appointment with your advisor is by using Grades First via MyUTK (under Academic Resources). You can also call the appointment line at 865-974-4483 or stop by 313 Ayres Hall to schedule an appointment or for scheduling assistance. If you need to cancel your appointment, please be courteous and do so on Grades First and send your advisor an email. See the Arts and Sciences advising website for business hours as they are subject to change.

Advising Policy: The following students are required to see an academic advisor each semester:

- Degree-seeking first-year students and transfer students prior to enrolling for the first time at UT.
- Readmitted students prior to reenrolling at the university.
- Continuing students who are exploratory, identified as off-track, on academic probation, and with fewer than 45 hours.

Other students are required to meet with an advisor for a substantial conference during a designated semester each year.

### Advice from your Advisor:

- Advising is collaborative, but please know that you bear the responsibility for educational planning, course selection, meeting prerequisites, and adhering to policies and procedures.
- Monitor your own progress and seek help from your advisor at any time. The best way to contact your advisor is through email. Please allow 48 business hours for response.
- Schedule your advising appointments early and meet with your advisor each semester.
- Attend class every day and get to know your professors.
- Read your VolMail regularly. This is the official means of communication between you and the university.
- Check Grades First to view reports and notes from your advisor, professors, and other university personnel.
- Balance your responsibilities and get academic assistance early on, if needed.
- Learn university policies and understand the impact of your choices – both academic and financial.
